ACC #:

PATIENT NAME: ROBICHAUD, JEANNETTE
REFERRING PHYSICIAN: SAMOLESKI, ADREA
DATE OF EXAM: January 11, 2021 10:00
FACILITY: [redacted]

DOB: [redacted]
PT #: [redacted]

Findings

Exam: Dual Energy X-ray Absorptiometry.

Patient reports no medications.

L-Spine:
Bone mineral density g/cm2 is 0.72
T-Score is -3.0

Left Hip:
Total femur bone mineral density g/cm2 is 0.62
Femoral neck T-Score is -2.9
Total hip T-Score is -2.6

Impression:
The patient is considered osteoporotic according to the World Health Organization (WHO) criteria.

Compared to the previous bone mineral density exam from February 2018, the bone mineral density has remained statistically unchanged in the lumbar spine and in the left hip.

FRAX score not performed given osteoporosis.
