Elaine A Tipton

Dear Elaine:

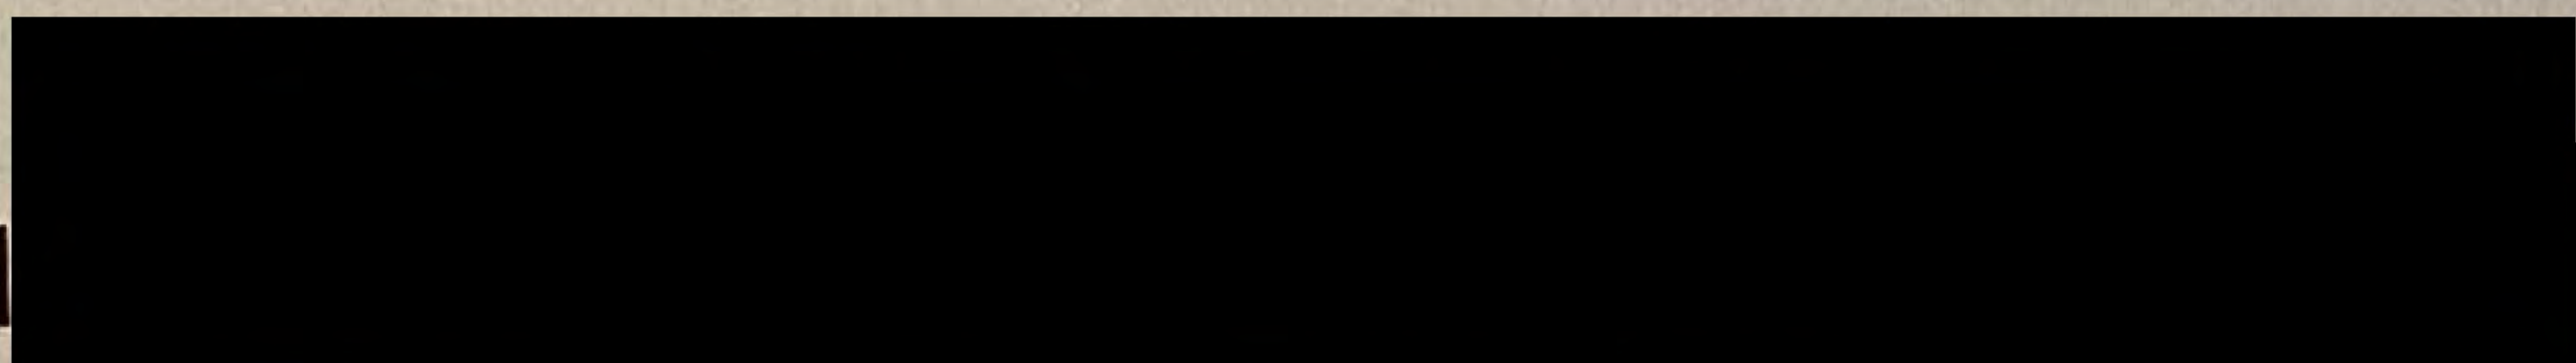

I am happy to report that your bone density is improved compared to before. The spine shows an increase of 10% and the hip has increased 3.6%. This puts you in the category of osteopenia rather than osteoporosis. Good job!! I recommend rechecking again in 2 years to keep an eye on it.

If you have any questions or concerns, please don't hesitate to call our office at Dept:

We look forward to continuing to partner with you for your future healthcare needs.

Sincerely,

Electronically signed by BETH
